

Abu David

Full Stack Developer

Address: Abuja, Federal Capital Territory, Nigeria

LinkedIn: <https://www.linkedin.com/in/abu-david-527758193>

- Full stack developer skilled in Redux.js, React.js, JavaScript, Next.js, .NET, C#, SQL, and Solidity. Passionate about dynamic interfaces and blockchain.

EXPERIENCE

ByteFlow, Federal Capital Territory

February 2024 - Present

Full Stack Developer

- Developed a real estate app with Next.js, TypeScript, and .NET. • Enabled estate administrators to create dues and users to pay them seamlessly. • Ensured smooth functionality and user-friendly experience throughout the platform.

NITDA Nigeria, Nigeria

January 2024 - Present

Frontend Web Developer

- Developed a dynamic web app using React, TailwindCSS, and Redux Toolkit for both client and admin sides. • Enhanced app performance and usability with efficient state management and responsive design. • Collaborated with teams to deliver a high-quality, user-friendly software solution on time.

Google Developer Student Clubs, Ekiti State

November 2021 - June 2023

Frontend Web Developer Mentor

- Mentored a certain number of students in frontend web development concepts. • Provided students with individualized guidance, helping them with their projects, and answering their questions. • Conducted regular tutorials to enhance students' understanding of web technologies.

Chainlink

October 2022 - December 2022

Frontend Developer

- Participated in a Chainlink hackathon as a Frontend Web3 Developer, leveraging my expertise in React (Next.js) with TypeScript and Ether.js. • Implemented web3 integration using Ether.js to connect the frontend application with the Ethereum network, enabling seamless interaction with smart contract functionalities. • Collaborated closely with a cross-functional team to align frontend development with smart contract logic and backend functionality.

3reen_online

March 2021 - June 2022

Frontend Web Developer

- Collaborated with an agile team in the development, deployment, testing and debugging of the web application. • Documented all changes made to the web application. • Led and trained 2 junior developers in the development of the web application.

EDUCATION

Afe Babalola University

January 2018 - January 2023

Bachelor's degree, Computer Engineering
